Experience

Tata Consultancy Services (TCS)

May. 2025 – Present

Systems Engineer

Pune, Maharashtra

- Migrated Data Service APIs from **Spring MVC to Spring Boot 3.2.0** and upgraded **Java 8 → Java 21**, converting **WAR to JAR**, enabling standalone microservices, integrating **Spring Cloud**, and achieving **40% faster deployments with 30% faster startup time**.
- Converted a monolithic module into a **microservice**, improving **scalability** and **maintainability**, while collaborating in **HLD and LLD design sessions** to architect and implement the module using a **microservices approach**.
- Implemented **i18n** in the frontend for **7 local languages**, improving user experience, and seamless content switching.
- Implemented **Spring Security 6 session management** with **30-day persistent sessions**, enhancing **authentication security, session persistence, and user experience** by minimizing token refreshes and repeated logins.
- Integrated **Redis caching** to offload **DB queries** by **60%**, optimizing API response times by **40%** and achieving **sub-millisecond latency** for frequent requests.
- Developed comprehensive **JUnit 5** and **Mockito** unit tests for **controller and service layers**, ensuring high **code coverage**, early bug detection, and regression-free releases.

Tech Mahindra

Sep. 2024 – May. 2025

Associate Software Engineer

Bengaluru, Karnataka

- Participated in training programs focused on **Java Full Stack Development** and **DevOps** methodologies.
- Developed and maintained web applications using **Java, JSP, Spring, Spring Boot, and React**.
- Worked with **CI/CD pipelines** using **Jenkins, Docker, and Maven**.

Projects

Cryffiti | *React.js, Web3, OpenZeppelin, MetaMask, IPFS, Infura.* (Deployed Link)

Aug. 2022 – Jan. 2023

- * Developed an innovative **blockchain-driven art platform** using **React.js** for the frontend, **Web3** for blockchain interactions, and **OpenZeppelin** for secure smart contract development.
- * Created the Frontend of the hackathon project which won overall 3rd prize. Implemented more than 50% of the interface using React JS, Sass and Material UI resulting in a visually appealing application.
- * Integrated **MetaMask** for secure user authentication and **IPFS** for decentralized storage of digital art assets, ensuring data integrity and accessibility.
- * Hosted the backend on **Infura** to leverage its scalability and reliability, enabling seamless interactions with the Ethereum blockchain.

Technical Skills

Languages: Java, JavaScript, SQL.

Developer Tools: VS Code, IntelliJ IDEA, Eclipse, Maven, Git, Postman, Google Cloud Platform.

Technologies/Frameworks: Spring Boot, Spring MVC, Spring Security 6, Hibernate, JSP/Servlets, NodeJS, ExpressJs, ReactJs, Material UI, Tailwind CSS, Firebase, Redis, MongoDB, MySQL.

Core Subjects: DSA, OOPs, DBMS, Computer Networks, Operating Systems, Compiler Design.

Soft Skills: Strong analytical, Problem-solving, Team-player, Self-starter, Leadership, Mentoring.

Problem Solving

- **LeetCode:** Active participant with a top 59.29% ranking, solving a wide range of algorithmic challenges to enhance problem-solving skills. **Profile Link**
- **GeeksforGeeks:** Ranked 25 out of 2000 users, consistently solving complex problems and contributing to the community. **Profile Link**
- **CodeChef:** Achieved a highest rating of 1439, demonstrating strong proficiency in competitive programming. **Profile Link**

Certifications

- **Microsoft Certified: Azure AI Fundamentals.**
- **JavaScript Essentials 1, Cisco.**
- **Google Cloud Fundamentals: Core Infrastructure.**
- **Meta: Introduction to Front-End Development.**
- **Meta: Introduction to Back-End Development.**

Education

Biju Patnaik University of Technology

Jun. 2020 – May. 2024

Bachelor of Technology in Computer Science and Engineering

8.6 CGPA
